Projects

1159 Days
Skywise Product (SHM)
This application is useful for Airbus and Airlines to maintain aircraft activities.

200 Days
nagasaiautomotives website

We have developed this website using wordpress and some custom html and css elements.

URL-nagasaiautomotives.com

City	Guntur, Andhra Pradesh
Country	INDIA

LANGUAGES

- English
- Telugu

200 Days

Student Database Application using Python and MySql

Establishing user friendly platform for students and staff to provide data regarding marks of students for all the previous semesters and to provide temporary marks lists. It can be easily manageable and well access to everyone. So, it will be useful for the staff to plan their teaching strategy to every individual student based on previous year mark sheets. This project front end is very interactive.

COURSES & CERTIFICATIONS

○ SAFe Agilist Certification Workshop (Valid upto January 2024)
